

# K206 TELEPHONE PBX

DS-284 Issue 01

Thank you for your interest in Zitel - we are a UK based manufacturer of PAGA and Intercom products. Our systems are mainly designed for use in the Hazardous Oil, Gas, petrochemical and Marine industries. Our products are robust and designed to comply with international standards.

The Zitel range of PBX switches provide all the features required of a modern communication system from six subscriber almost unlimited multi user switching capability. Model K206 supports up to six extensions and is designed to provide service in marine and industrial applications.

## K206 TELEPHONE PBX

---

*Two Exchange Lines* – external trunk capability

*Universal supply input* – simple to install and set to work

*Up to Six Extensions* – expansion capability by cascading

---

The Zitel K206 PBX switch supports up to six analog telephone handset subscribers and is equipped with two exchange lines. The unit can be cascaded to extend subscriber capability if required.

The unit is equipped for surface / bulk head mounting but can alternatively be supplied as part of a standard 19 inch rack assembly. The K206 is designed and packaged for industrial or marine execution and seamlessly interfaces with Zitel PPX16 switch to realise a totally integrated Page / Party system where required.
