

# MG600 Ex i

## IS EXPLOSION PROOF MICROPHONE

DS-212 Issue 07

Thank you for your interest in Ziztel - we are a UK based manufacturer of PAGA and Intercom products. Our systems are mainly designed for use in the Hazardous Oil, Gas and Petrochemical industries.

Consequently our products are very robust and designed to comply with international standards. MG600 Ex i is an ATEX certified microphone which enables convenient location in confined spaces. The capsule is noise cancelling enabling efficient use on an industrial application.

Please do not hesitate to contact us for further information on our products we look forward to working with you on a project

### MG600 Ex i INTRINSICALLY SAFE EXPLOSION PROOF MICROPHONE FOR ZONE 1 / 2 AREAS

*ATEX certified – Safe in Zone 1 or 2  
hazardous area locations*

*Cardioid noise cancelling – High intelligibility speech*

*Mounting options – Fixed or gooseneck mounted*

*Compact Design – Use in confined spaces*

The MG600 Ex i is a dynamic noise cancelling microphone which can be located in a potentially explosive atmosphere when used in conjunction with a certified Ex i intrinsically safe barrier.

The MG600 Ex i unit is certified allowing use in a diverse range of applications including crane cabs, drilling installations, onshore/offshore petrochemical sites. The MG600 is field proven in aggressive climatic locations and features a dynamic hyper cardioid noise cancelling response enabling intelligible speech in areas of high noise. The unit can be fitted onto a flexible 'gooseneck' stem, fixed or panel mounted as required enabling convenient installation in very confined spaces.

*The rugged ATEX certified MG600 microphone transducer as used in all variants of the MG600 Ex i*

|                    |  |
|--------------------|--|
| Type MG600Exi-E    | 'Stubby' microphone on termination enclosure                   |
| Type MG600Exi-F *  | 'Stubby' microphone for panel mounting                         |
| Type MG600Exi-G200 | Standard 200mm gooseneck microphone on termination enclosure   |
| Type MG600Exi-G250 | Standard 250mm gooseneck microphone on termination enclosure   |
| Type MG600Exi-G600 | Long reach 600mm gooseneck microphone on termination enclosure |
| Type MG600Exi-P *  | 250mm gooseneck microphone with flange for panel mounting      |
| Type MG600Exi-S *  | 'Stubby' microphone for slotted bracket mounting               |

**\* Note:**

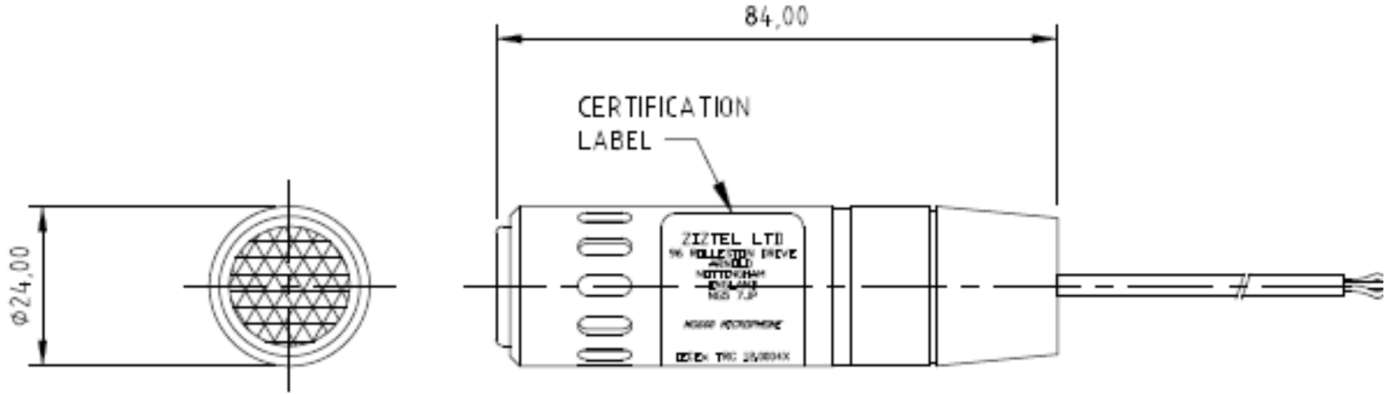

*These models do not come with a termination box as standard. Remote termination box MG600Exi-TB can be supplied as an optional extra.*

The MG600 Ex i can be used in conjunction with Zitel DAS series of explosion-proof audio amplifiers or Zitel MT50 drillers talk back amplifier to realise a complete Zone 1 hazardous area stand-alone paging system. A typical example is a crane cab shout system which is located in a hazardous area, the arrangement would then consist of a DAS01 Ex amplifier, explosion-proof horn (sited outside the cab) to project to the immediate area and an MG600Exi-G600 gooseneck microphone.
