

AH2

TELEPHONE SHELTER

DS-170 Issue 01

Thank you for your interest in Zitel - we are a UK based manufacturer of PAGA and Intercom products.

The AH2 is a shelter designed specifically for use on refineries, off shore platforms, drilling installations and other industrial locations.

Please do not hesitate to contact us for further information on our products we look forward to working with you on a project soon...

AH2 TELEPHONE SHELTER

Rot proof construction – Minimal Maintenance

Excellent performance in Marine Locations

Highly visible self-coloured gel coat – Rapid Location in emergency

Light weight – Simple installation

Shelter for both user and communication apparatus

Zitel AH2 high performance shelter is specifically designed to provide reliable service with minimal maintenance in aggressive climatic and environmental conditions.

Corrosion proof construction and quality build ensure performance in applications including offshore installations, Refineries, Chemical plants and any industrial site where protection is required against aggressive environmental conditions.

The AH2 is manufactured from rigid fire retardant glass re-enforced polyester fibre GRP to class 0 BS476 and is totally rot proof and unaffected by ultra violet (UV) light. The unit requires no routine maintenance (unlike metallic enclosures which require costly through life service) and the light weight construction enables simple easy installation. A range of colour options are available which are embedded into the shell of the booth during manufacture ensuring that the colour is stable throughout the life of the product.
